Re: **Genesis Alkali Sodium Bicarbonate Melamine Statement**

Dear Valued Customer:

This letter is to confirm that Genesis Sodium Bicarbonate (all grades) is produced from a naturally occurring mineral source. Melamine is neither a part of our natural mineral source, nor is it used anywhere throughout our process. Additionally, our process does not include any starting materials that could form Melamine. While we do not test for Melamine, it is not expected to be found in our Sodium Bicarbonate products.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in blue ink that reads 'Michael Kemmerer'.
