Re: NSF Statement – Caustic Soda (50%)

Dear Valued Customer:

Genesis Alkali sodium hydroxide described below has been tested and certified by the National Sanitation Foundation (NSF) for use in pH adjustment. NSF's approval may be viewed by going to the NSF web page at www.NSF.org and conducting a search by manufacturers using Genesis. The product listing is under Genesis Alkali, LLC – Standard 060 – Drinking Water Treatment Chemicals – Health Effects.

	<u>Dosage (mg/L)</u>
Sodium Hydroxide – 50%:	200 max.

The certification continues with the product as long as it remains in its original unopened container from the Genesis plant in Green River, Wyoming.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads 'Michael Kemmerer'.
