

Sodium Carbonate - Prop 65 Statement

Genesis has evaluated our product, sodium carbonate (all grades), for compliance with California's "Safe Drinking Water and Toxics Enforcement Act of 1986" (commonly referred to as Proposition 65). Several samples of various product grades were analyzed and compared to the latest Prop 65 chemical list. Based upon test results, we do not believe exposure to our sodium carbonate product poses a significant risk of causing cancer or reproductive toxicity.

Nonetheless, we are notifying you that the following chemicals have been periodically detected in composite samples of our sodium carbonate products (all grades). This information is being provided to assist you in evaluating your products and any obligations you may have under the law.

 **WARNING:** *This product can expose you to chemicals including lead, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.*

Product	Prop 65 Chemical	Typical Concentration (ppm)	Genesis Specification Limit (ppm)	Listed Effect
Sodium carbonate (product grades 50, 100, 160, 260, A+)	Chromium, Cr	< 0.5	Not specified	A
	Lead, Pb	< 1	< 4 (grades 100, 260, A+) Not specified (grades 50, 160)	A & B
	Arsenic, As	< 0.1	< 3 (grades 100, 260, A+) Not specified (grades 50, 160)	A
	Nickel, Ni	< 0.5	Not specified	A

All other Prop-65 listed chemicals were not analyzed but are not expected to be present.

Read the product Safety Data Sheet (SDS) prior to using the chemical.
